

About Us

Our Vision

While maintaining the value of our privately held company, SeaCure Docking Systems, Inc. will be a leader in supplying functional and environmentally friendly solutions to the waterfront docking community.

Our Mission

SeaCure Docking Systems, Inc. is in the business of manufacturing and supplying PVC based products for dock piling and built-in piling accessories.

Our Philosophy

After careful consideration, the management of SeaCure Docking Systems, Inc. has ratified the following statement of beliefs. These beliefs form the principles by which the Company is to be managed and to which all owners, managers, employees and customers can look for guidance in the conduct of our business.

- We believe **profit** is both an economic necessity and a reward for a well-managed company. We will manage SeaCure Docking Systems to assure long term profitability to perpetuate the company.
- We will **manage** SeaCure Docking Systems, Inc. for continuous quality improvement in every area.
- We believe our **customers** require efficient, effective solutions to their changing needs; therefore we will continue to develop products that provide functionality, longevity and non-polluting solutions to meet those needs.
- We believe **value**, the balance of price with quality, is the right measure for goods and services. Our goal is to provide the best value in the market place.
- We believe **employees** who contribute to the success of the Company should be rewarded with career enhancement and financial incentives. We will select, train and reward employees who demonstrate the desire and ability to meet customer and company needs.
- We believe **vendors** are an essential factor in our ability to meet our customer's needs. We will seek long term, mutually beneficial relationships with vendors who consistently provide us with on-time delivery of dependable quality products and services at competitive prices.
- We believe our **reputation** as a good company to do business with is a valuable asset, therefore; business conduct must not only be legal but ethical. We will at all times endeavor to conduct our activities in the highest ethical manner possible and in compliance with applicable laws and regulations.

SeaCure Docking Systems Inc. - Testimonials

Letter from Dock Owner:

Dear SeaCure Docking Systems,

Thank you for a well designed and engineered product, an efficient and quality focused installation process, your constant attention to detail, and the best value in the market place. Your unique docking system will not only serve me and my family for generations, but it will also protect the water way systems, the surrounding eco systems, and the sea and wildlife that inhabit them, truly a winning combination!

Clearly, we love our new dock, and more importantly, we hold you and your team in high esteem because of the professional manner, competency, integrity, and pride in workmanship which was consistently evident throughout this entire project. These behaviors and values hallmark the SeaCure brand, and will continue to position your business head and shoulders above the competition.

Our boat is on the lift, and as a result, we have had more opportunities than ever before to enjoy God's gifts and experience the many treasures and awesome beauty of the Rappahannock River and Chesapeake Bay. Thank you again.

Sincerely,
H.D.
Middlesex County, Virginia

SeaCure Docking Systems Inc. - Professional Associations

SeaCure Docking Systems Inc. is a member in good standing with the Florida Marine Contractors Association, Inc. The [Florida Marine Contractors Association](#), Inc. is a non-profit Florida corporation dedicated to enhancing the business environment of highly qualified and properly credentialed general and marine contractor members. In so doing, the Association enjoys the support of a select group of associate, professional, and reciprocal members who embrace the goals, policies, and purposes of the Association.

Membership has grown steadily since a small group of dedicated charter members established the Association in 1999. Then, as now, it was understood that individual voices are seldom heard above the bureaucratic rhetoric, while organized and collective efforts can compel those with regulatory and legislative authority positions to act more responsibly.

Today, the Florida Marine Contractors Association, Inc. has the resources to influence events of vital concern to the marine construction industry. Thus the motto of the Association, "*NO GREATER CREDENTIAL.*"
